INDUSTRIAL ENGINEER

YIGIT ARDA AYYARKIN

As a Senior Industrial Engineering student at Hacettepe University, I am actively seeking internship opportunities in areas such as consulting, supply chain management, operations research, production planning, programming, quality control, and data analysis. My academic background has equipped me with a strong foundation in core industrial engineering principles, including process optimization, systems analysis, and operational efficiency. Through hands-on projects and industry experience, I have developed practical skills in data-driven decision-making and sustainable process improvements. I am eager to contribute to impactful projects within a forward-thinking organization,

EXPERIENCE

SUMMER INTERN - 2023

ARAS KARGO

- Handled Real-life optimization problems on a larger scale with computers
- Directly engaged with logistics and supply chain management processes, which provided a practical understanding of workflow optimization, process improvement, and system design.
- This experience sharpened my analytical skills and ability to develop innovative solutions, preparing me to tackle a wide range of industrial engineering challenges in my future career.
